# PLANNING YOUR NEW KITCHEN

For many of us the modern kitchen is the most popular room in the home.

Therefore, from the outset think carefully about how you and your household are going to use the space. Once you are clear on this, the challenge is to be able to successfully combine practicality with an appealing space that you enjoy spending time in. To help you plan your kitchen project and brief your kitchen designer, we've split the kitchen planning process into 5 stages:

## THE LOOK

1

With so many different styles, shapes, colours and materials to choose from there's a lot to think about in achieving the right look for your kitchen. For instance, do you have a strong preference for traditional or contemporary styled furniture? You may be clear on this from the outset, but the kitchen should be seen as part of your overall interior design plan rather than a standalone element. With so much inspiring content available from magazines and online, have some fun creating a moodboard of styles, textures and colours you really like. This will be a great help when it comes to briefing your kitchen designer.

## THE BUDGET

2

When setting your budget bear in mind that the cost of key elements, such as appliances, cabinets and worktops, can vary dramatically. If you decide to choose branded appliances, for example, then this may well account for a considerable share of your overall cost. Your choice of worktop can also affect costings significantly so you may have to make some compromises to stay in budget.

## THE LAYOUT

3

A well planned layout will make the best use of your space and is key to the success of any kitchen project. The position of your hob, sink and fridge are critical to the ergonomics of the room. Get this wrong and cooking could become a frustrating experience. The shape and size of your room will directly influence the layout you decide on, but it is worth exploring the range of layouts available as some will suit your lifestyle better than others.

## THE PRACTICALITIES

# 4

Addressing the practical aspects of your new kitchen is key to its success. We know how important plenty of well-planned storage is in creating an organised kitchen and helping to keep worktops clutter-free. You will find plenty of clever storage ideas in this brochure to make the most of the cupboard space you have.

Consider the functions you require from your appliances, sink and worktop. For example, do you need a worktop area that also doubles as a breakfast bar? Don't overlook lighting, which is important in establishing the mood of a kitchen as well as ensuring adequate illumination of preparation and cooking areas.

Talk to your designer about the latest innovative LED lighting solutions, including sensor-controlled drawer and cabinet lights and decorative lighting.

## 5 CHOOSING A DESIGNER

A good kitchen designer is the person responsible for making your perfect kitchen a reality. This doesn't come about through chance, but by employing the services of an expert who will work with you, listening to your ideas and advising you on what will work and what may not. They'll guide you on the best layout for your space and advise on colours, materials, storage, worktops, lighting and appliances. In fact, all the decisions you'll need to make. The result will be a kitchen that works for you and your lifestyle - now and well into the future.

## REAL KITCHENS

Our photography often features larger kitchens but we appreciate, that in reality, kitchens come in many different shapes and sizes.

With the Real Kitchens area of the Second Nature website you can browse through our gallery of projects that have been designed and installed in real homes by our specialist Second Nature retailers.

You can view kitchens by style, finish, layout and budget and refine your search to suit your needs, gathering ideas from the designs and viewing work by retailers in your area. There's also lots of handy designers' tips.

## BROADOAK RYE

A light washed timber option from our popular Broadoak range. The centrepiece of this kitchen is the simple but impressive island and the free-standing dresser.

WORKTOPS SHOWN:  
Granite - Nero Assoluto | Silestone - Helix Nebula  
HANDLE SHOWN | H1009.128.PE

DESIGNER'S TIP

CHOOSING FREE-STANDING KITCHEN UNITS CAN HELP ADD  
A MORE SPACIOUS AND RELAXED FEEL.

**CREATE  
THE LOOK**

*Make islands into  
practical workstations  
with plenty of storage  
and added features

## BROADOAK NATURAL

Broadoak's natural timber finish gives you the freedom to go light or a bit darker with your interior design. The internal curved cabinetry used in our photography creates a feature of the corner areas, wrapping around the walls for an intimate feel and enhancing the proportions of the kitchen.

WORKTOPS SHOWN:

Granite - Blue Eyes | Natural Wood - Rustic Oak, full stove

## ESTRO WALNUT

Estro's rich walnut finish is well-suited to both contemporary and period homes. Just change the handles and accessories to customise your look.

HANDLE SHOWN | H198.337.SS

## MILBOURNE OAK

Milbourne is a classic Shaker door with a chunky frame and a subtle textured finish. This oak effect finish mixes pleasingly with the alabaster peninsula, which is ideal for informal dining and food preparation.

WORKTOPS SHOWN:  
Granite - Labrador Emerald Pearl | Natural Wood - Oak  
HANDLE SHOWN | K833.40.IR

DESIGNER'S TIP

MAKE ISLANDS THE FOCAL POINT BY DESIGNING  
IN A CONTRASTING COLOUR, WHILST UNIFY  
WITH THE SAME WORKTOP MATERIAL.

## LYNDON

Lyndon's knotty oak timber says country living in an instant. The Shaker doors' wide rails and use of pewter handles add to the cosy feel of this rustic kitchen.

# CORNELL OAK

Cornell's natural oak and fine detailing, from solid timber pilasters to mantels and corbels, are the epitome of a country kitchen, combining outstanding craftsmanship with everyday functionality.

WORKTOPS SHOWN:  
Granite - Indian Black Pearl | Natural Wood - Maple, full stove  
HANDLES SHOWN | H217.39.AP | H218.128.AP | H219.50.AP

DESIGNER'S TIP

MAKE THE KITCHEN THE HEART OF THE HOME BY DESIGNING MULTI-FUNCTIONAL ISLANDS THAT INCORPORATE LOTS OF USES SUCH AS STORAGE, PREP AREAS AND LOWER-HEIGHT DINING OR WORKING AREAS.

## MILTON OAK

Milton brings a classic in-frame style up-to-date, so it is easy to adapt for a variety of settings. The use of solid pewter knobs give a nod to the past.

WORKTOP SHOWN | Granite - Angolan Black Leather

## HALF PENCIL & SCALLOPED

This supremely practical design keeps everything within reach, thanks to the choice of hidden and open storage options as well as a central island featuring plenty of preparation space.

Colours here range from bold and confident Charcoal through to soft Partridge Grey to Chalk, with natural wood tones in the birch and maple worktops.

## QUARTER ROUND

Simple and functional, a compact design in which space has been carefully considered without compromising on looks or practicality.

The Morris blue is inspired by eighteenth and nineteenth-century colour palettes; contributing to the light and airy feel are wall cupboards which feature mirrored backs and are painted an off-white to co-ordinate with the tiles, walls and sink.

## IN-FRAME SHAKER

This is a kitchen designed to work hard - yet it has all the good looks and smart storage needed to create a space for entertaining, which is beautiful, decorative and easy to maintain.

The pantry has an independent, free-standing look. Adding to the bespoke feel are quadrant curves, softening the overall effect and providing generous corner storage. The pilasters have been pulled forward to add detail to the cornices, worktops and plinths.
