# In-Frame Kitchens

The fundamental design of the in-frame kitchen has withstood the test of time. Whilst the frame surrounding each door is a feature of traditional cabinetry, our in-frame ranges are so versatile, you can create your own look to suit your own space and style - however modern or traditional that may be.

By using the highest strengths and qualities of both ash and oak, the Eildon and Baystone in-frame ranges possess all the essential ingredients a kitchen requires to fit right into the heart of your home.

## Eildon Cream

Eildon Cream blends the traditional and intrinsic elegance of the in-frame with the inherent strength of ash to produce furniture, which is both beautiful and durable.

The subtle background wall colour of the Fired Earth 'Bells Green' paint adds further light and style to this impressive kitchen.

Featured Handles: Styles 88 & 89

Contemporary or classic, Eildon is such a versatile range that even in a modern setting traditional features such as the over mantle set work in harmony with the rest of the kitchen.

# Eildon Oak

With the finest choice in timber and exquisite craftsmanship, the Eildon oak displays the glorious character of European oak in its natural state.

Functional furniture such as the butchers modular unit and full height larder doors make a practical and stylish addition to your kitchen.

Featured Handles: Style 88 & 89

# Baystone Cream

Whether your style is contemporary or traditional, the kitchen is always at the heart of the home. The Baystone in-frame is as much an investment in family life as it is to the value of your home.

Featured Handle: Style 02 & 97

# Timber & Painted Kitchens

Our timber and painted kitchens range from the organic essence of timber through to painted satin finishes - always benefiting from the best in manufacturing and premium quality paints.

This selection combines Italian craftsmanship with an array of both classic and contemporary styles which offer a fashionable solution to the kitchen you most desire.

# Rivington Cream

The Rivington Cream is a simple design with a distinct timeless feel. It blends the beautiful quality of European craftsmanship with classic lines and a soft neutral cream.

Customise with our carefully selected bespoke colours to complement the cream and add an interesting feature to your kitchen.

Featured Handles: Styles 106 & 108

Island colour: Sage >

## Rivington Oak

Rivington sets itself apart from other ranges, being a solid oak shaker, complemented with a deep chamfer into the centre panel. It's difficult not to be taken in by the rich tones and varied grains that oak naturally exhibits.

Thoughtful design features, such as full height larder doors, allow even greater flexibility when choosing interior storage solutions.

Featured Handle: Style 26

Interesting details, such as tongue and grooved panels and radius end mouldings, help define the design, making it your own.

# Abberley Cream

Some designs stand the test of time. Elegant yet fresh. Abberley is a modern classic for today's style and today's home.

Here the island has been painted in our bespoke colour Ink Blue, a stylish sophisticated colours that acts well as a centrepiece.

Featured Handles: Style 119 & 120

## Lansdowne Oak

The Lansdowne is constructed from European oak and finished in a tinted lacquer to reveal its natural qualities and inner beauty. A quintessential design that has become a timeless classic.

Featured Handles: Style 17 & 18

Adding glazed units brings a touch of variation to the room. Fitted with a masterpoint glass, this effect gently obscures the items which sit behind.

Radius end mouldings and curved cornice corner blocks soften the edges of the kitchen - perfect if you're incorporating an island unit.

## Meldon Cream

Combined with a full satin paint finish, the Meldon ash kitchen is a wonderful fusion of traditional materials and modern design. The individuality of each piece with its infinitely varied grain is what makes it so special.

Featured Handle: Style 30

## Bowfell Oak & Cream

Bowfell, an oak door with flair and imagination. A modern twist on the classic shaker style with uncompromising design options, allowing you to create an unmistakably attractive room.

Kitchen islands are becoming more and more popular, used to increase work surface area or to sit and enjoy meals with friends and family. Our beautifully crafted s-shaped pan drawers also add a lovely flowing character to the kitchen.

Featured Handles: Style 44, 80 & 81

# Gloss & Matt Kitchens

Contemporary living spaces have never ever been so interesting. Our collection offers a wide choice of colours as well as finishes, enabling you to maximise the individuality of your new kitchen.

# Torberry Light Grey & White

The Torberry range features a recessed centre panel creating a frame-like impression. It is this soft framing which brings the door a sense of depth which in turn highlights the smooth matt painted finish.

Featured Handles: Style 129 & 130

## Aconbury Matt

The coolness of the Aconbury Matt Porcelain evokes a pure and contemporary feeling - a calming backdrop to the hub of the home. For added interest, the Aconbury can be mixed seamlessly with the Welford gloss range.

Featured Handle: Style 64

## Hameldown Cream

This design harnesses the natural warmth of cream, enhanced further by the oak splash-back and breakfast bar panel. Stylishly colour coordinated handles sit proudly on the face of the doors, adding a subtle design feature to the set.

## Hameldown Dune

Hameldown Dune has the ability to adapt beautifully to any home, offering a chic alternative to white and cream. Curves on the island soften and round the corners, creating a powerful design.

Featured Handles: Styles 52, 74 & 75

Slim styled handles were the perfect choice for this streamlined kitchen.

## Hameldown White

Fresh, bright, and complete with a brilliant mirror-like lacquered surface, Hameldown white is simple in form yet beautifully versatile in design.

Featured Handles: Style 76 & 77

# Welford Bright White & Sky Blue

If you're searching for colour or variety within your kitchen, then our gloss doors certainly deliver. Each colour works beautifully on its own or can be combined with great effect to help define different areas of the kitchen.

## Welford Cream & Willow

The handleless kitchen stands out due to good organisation and well-considered details. Features such as the full height larder doors allow for convenient storage management, whilst also adding great visual aspects to the kitchen.

The six colours complement each other perfectly, giving you the freedom to combine tones and achieve precisely the effect you desire.

The six colours complement each other perfectly giving you the freedom to combine tones and achieve precisely the effect you desire.

# Welford Savanna

Minimalist design with maximum impact. The Welford handle-free fronts deliver a non distracting quality to the kitchen.

The stylish simplicity of interplay between materials in this design led to a modest palette of earth, concrete and timber. The result was a kitchen with a beautiful, warm, textural look and feel; taking on a life and personality of its own.

## Welford Grey & Willow

Encompassing a built in J-handle, Welford delivers both a practical and stylish design, with a comfortable grip which allows your fingers to glide behind and open with ease.

For other design options, curved doors and external corner posts can add those extra finishing touches to the end of units. Little additions such as these can help a kitchen feel complete.

Mixing cream tones with contrasting design elements, such as black glass or dark chunky wood panels adds designer detail.

## Haddington Cream

Haddington high gloss doors are a statement of quality. Whether you choose cream, white or grey the richness of colour and depth of gloss is unique to a painted finish.

# Haddington Grey

The softness of grey combines especially well with bold accessories such as the bright yellow splashback. The grey also works in harmony with the oak flooring and timber beams demonstrating just how versatile this fresh modern colour is.

Featured Handle: Style 92 & 93

mixer

Featured Handle: Style 34

# Haddington White

The light reflecting qualities of the Haddington high gloss range are further enhanced with the soft flowing symmetry of internal and external curved doors.

White has often been a preferred choice for many home owners due to the natural perception of cleanliness. Add colour with appliances and utensils to make this kitchen really sparkle and give it a touch of individuality.

Featured Handles: Style 92 & 93

# Bespoke Painted Kitchens

In addition to the kitchens shown in this brochure, we also have our Bespoke Painted Collection brochure. In this you will find a full range of kitchens which are available in a variety of bespoke painted colours.

Please speak to your retailer for more information.

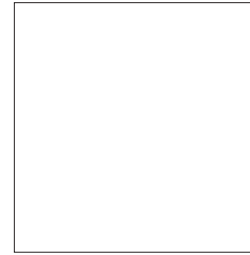

# STOCKED PAINT COLOURS

Our carefully selected palette comprises 28 of the most beautiful colours and are often specified by contemporary interior designers. Each colour is compatible with our timber and matt ranges.

Our experienced polishers are flexible to your requirements and will be happy to offer a RAL colour matching service if your chosen style is outside our portfolio.

## SAMPLES

Colour has the ability to look very different depending on the light source. For this reason we highly recommend that you request a sample door before you commit to an order.
