MANUFACTURING FOR OVER 150 YEARS

In 1867 Henry Burbidge founded his woodworking company with a capital of ten shillings at the age of forty. Today with the fifth generation now at the helm, Burbidge & Son is widely recognised as one of the leading UK kitchen manufacturers, producing highly sought after and exceptionally well crafted kitchen ranges.

Our legacy means we have an intimate knowledge of inspired kitchen design, matching the unique set of requirements that each home, customer and kitchen brings.

YOU'RE IN SAFE HANDS

We're only a part of your new kitchen's story. Over the years we've built a network of exceptional independent kitchen retailers, designers and installers. This network of specialists is armed not only with an in-depth knowledge of our products, but they are experienced in every aspect of kitchen design and installation. They are the perfect partners to guide you through the many choices and decisions, helping you to realise your perfect kitchen.

SUSTAINABILITY

Sustainability is at the forefront of how we develop our products, and how we run our business.

Our timber is sourced from well managed forestry in the U.K. and Europe, where the cycle of clearing and replanting has been continuous for many generations. We only use temperate hard and soft woods and avoid endangered tropical timbers. We have agreed with all our suppliers to only purchase timber products which do not damage the environment.

WELCOME TO OUR BURBIDGE COLLECTION

Drawing on our rich woodworking heritage and experience, we design and craft kitchens that will be admired for many years to come. Our passionate understanding of what makes a great kitchen, combined with our ability to shape it around the individual, ensures you are in safe hands.

Our collection embraces both classic and modern designs: elegant solid timber in-frame, classic shaker style, modern integrated handled, and minimalist slab styles. With a wide range of sizing, colour, storage and accessory options, you have the freedom to personalise your kitchen to suit your unique taste and lifestyle.

By choosing Burbidge, you can rest assured that you are investing in the highest standard of product by a British manufacturer. Testament to the quality, craftsmanship and intricate detailing that we have become trusted for, we are proud to be holders of the prestigious Manufacturing Guild Mark, awarded by the Worshipful Company of Furniture Makers – a mark of excellence in British furniture making.

Why choose just one colour when you can enjoy the beauty of two. A two-tone kitchen provides the opportunity to highlight features while adding depth and dimension to your space. Using different colours can also help to separate areas within an open-plan layout, effectively distinguishing the kitchen from the living or dining areas.

THOUGHTFULLY DETAILED TO CREATE
A BEAUTIFUL, TRADITIONAL SCHEME

TETBURY

Experience exceptional design and craftsmanship with our Tetbury in-frame range. Featuring a detailed door profile adorned with decorative frame beading, Tetbury stands as our most traditional kitchen range. Our in-frame ranges are painted in our UK workshop. Each piece receives meticulous attention, resulting in a flawless finish that subtly reveals the inherent woodgrain.

Colour is a key component of your kitchen scheme, from timeless neutrals and warming tonal layers, through to sharper accents, our palette of 26 curated paint finishes offer a wealth of on-trend possibilities. If you can't find your perfect match, our bespoke painted service means we can match your painted kitchens to a colour swatch from any paint manufacturer.

**AN IN-FRAME EFFECT
KITCHEN DESIGN COMBINING LUXURY
AND AFFORDABILITY**

CHARTWELL

Our passion for using quality materials runs through the Chartwell design. The painted finish subtly reveals the delicate figuring of the door's woodgrain framing beneath. This well-crafted door design references the past, but feels fresh and contemporary. The neat detail line which runs around the door gives the impression of being an in-frame kitchen yet as a standard door.
